Ionic Foot Bath Detox

What is it?

The Ionic Cleanse Detox Machine is a high-tech water detoxification system that facilitates the body's ability to heal itself. The Ionic Cleanse Detox Machine is a water foot-bath that utilizes steel electrodes, which cleans, balances, and enhances bio-energy, a vital force present in the body's fluids.

The action of the machine is to help your body with:

- Less fluid retention
- Reduction of inflammation
- Improved memory
- Improved bladder control
- A more balanced pH
- A stronger immune system
- Significant pain relief, inclusive of, but not limited to arthritis, gout, and headaches.

Reflexology teaches us that each foot is actually an outlet through which the body attempts to cleanse or rid itself of heavy metal and toxic waste build up in numerous other areas of the body.

While using the Ionic Cleanse Detox Machine, you will actually see the cleansing process as the water interacts with a compound electric current along with a frequency field structure. Subsequently, this cleansing process attains the correct frequency required to restore cells to a healthy state, while releasing years of bonded waste. It is important to realize that the Ionic Cleanse Detox Machine enhances the effects of other therapies.

Studies and Research

Studies have shown the Ionic Cleanse Detox Machine improves oxygen levels. Ions are atoms or molecules that have lost or gained electrons, and free radicals are unpaired electrons. If the atom or molecule loses electrons then they become positively charged ions, and if they gain electrons, they become negatively charged ions.

Skin & Beauty

Rashes, dark circles under the eyes, swollen joints, and yellow-green and blotched complexions often indicate a buildup of tissue and acid wastes inside the body. Drink plenty of water, since your body will still be detoxifying after each session. After several sessions with the Ionic Cleanse Detox Machine, in conjunction with modifications in diet, there will be substantial reduction or elimination of these skin issues. The sessions will help you look younger and feel better. This system does not claim to cure or treat any disease or injury. It assists your body to rebalance its bio-energy fields, and stimulates the body for self-detoxification. The body's organs will naturally function better when there are fewer toxins in the body. The ion energy charged foot bath will help you feel young again.

The Ionic Cleanse Detox Machine, along with a thorough and proficient way to maintain long-term elevated levels of energy and wellness.

The Science

How does the Ionic Cleanse detox machine work?

A water molecule is composed of two hydrogen atoms and one oxygen. When the molecule loses a hydrogen atom, the remaining OH molecule takes on a negative charge. As you walk along the beach, your body absorbs millions of these negatively charged ions, which alkalize the blood and tissue. The Ionic Cleanse Detox Machine generates the same effect as a walk along the beach, only more effectively.

During, and after, a thirty minute session you will become aware of the constituent parts of fat, along with mucous residue that the body has eliminated. The foot bath sessions will help you to feel lighter in your body, have more energy and maintain a greater sense of well-being.

Why do we need to detoxify?

In today's toxic environment, tissue acid wastes, chemical and heavy metal residues build up in the body faster than ever before, resulting in a greater incidence of allergies, mental, and physical incapacitation.

Pimples, rashes, dark circles under the eyes, swollen joints, yellow, green and blotched complexions often indicate a buildup of tissue acid wastes inside the body. Modifying your diet along with the Ionic Detox Cleanse sessions will help you reduce and even eliminate these conditions. Cells, when imbalanced, impede the body's functions that facilitate healing, including eliminating heavy metals, parasites and other toxins. However, cells that are fully charged have more oxygen and have the capability to undergo electrical balance that results in elevated mental attitude, energy, vitality, and well-being.
